ADDRESS OF MTS MANAGEMENT BOARD

Dear colleagues,

This is the Code of Business Conduct and Ethics of MTS Group¹ (hereinafter the Code). It represents a collection of essential rules of behavior and business principles upheld in MTS Group.

Over several years, MTS Group has grown into a digital ecosystem. It brings together the multicultural diversity of our business areas around a common philosophy **#ThisIsMTS**, and common goals of the business strategy pursued by MTS Group directed at building long-term relationships with customers by focusing on their needs, increasing loyalty and offering favorable conditions for the use of its range of products.

To better feel the spirit of this Code, it is important to understand the principles behind **#ThisIsMTS**, adherence to which inspires the team of MTS Group, helps us to achieve the highest results and become the best in everything we do.

By creating products **#AboutClient**, communicating internally and externally **#QuicklyToThePoint**, being proactive **#TakeAction** and **#MakeItCool**, we **#Together** every day demonstrate by our behavior and results that MTS Group is **#MoreThanWork**.

At the same time, regardless of our strategy, which is a dynamic tool guiding our journey to success, and beyond the unique opportunities of our environment, MTS Group is firmly committed to the responsible business practices and the principle of zero tolerance for any violations of the rules of business conduct and ethics in any part of our ecosystem.

High ethics, honesty and fairness are the fundamental pillars of our conduct and an unwavering requirement for all managers, employees and members of MTS Group. It is commitment to the core values upon which MTS Group business is based – high ethics, fair business conduct, conscious and responsible attitude to resources, proactivity and openness, aspiration to do more and better than expected in every point of contact with every client, colleague or counterparty – which is the key to sustainable business growth and competitive advantage for MTS Group in the long run.

We, as members of the MTS Management Board, see our role not only in strict adherence to the requirements set out in this Code and compliance therewith, but also in explaining and helping all employees and stakeholders in the ecosystem to truly understand them. We and the entire team of MTS Group will make our best efforts to stay on the chosen track and implement the principles outlined in this Code in all aspects of our daily work.

*Controlled Subsidiary means an entity where MTS holds, either directly or indirectly (including effectively), a consolidated share of ownership and control more than 50% of the authorized capital/ votes, or entities in respect of which MTS has the power to take part in the decision-making process by virtue of an agreement or shareholder agreement concluded between MTS and the participants/shareholders of the Controlled Subsidiary.

1. INTRODUCTION

1.1. WHAT IS THE CODE AND WHY IS IT NEEDED

The Code lays down the principles, standards of conduct and business practices upheld by MTS Group, which guarantee honest and fair treatment of all our team members, partners, customers, as well as the compliance with the applicable laws and internal regulations of the company.

Employees and executives of MTS Group's companies, in performance of their duties on behalf of MTS Group shall act lawfully, faithfully, ethically and in the best interest of MTS Group. The Code will help to promptly reveal situations that are contrary to the ethical principles of MTS. MTS PJSC and companies of MTS Group implement and maintain a risk-oriented training program for employees and directors of MTS Group on the requirements established by the Code through a specially developed training system: training is delivered on a regular basis, at least once in 2 (two) years, in person, electronically or in any other available format in accordance with the Annual Training Plan published on the corporate portal.

1.2. TO WHOM THIS CODE APPLIES

The provisions of the Code apply to all employees and executives of MTS Group, regardless of their job position, duties, length of service and place of work.

We support and strive to ensure, whenever possible, that affiliates not controlled by MTS PJSC, as well as partners and counterparties, conduct their activities in accordance with the standards established in this Code. When you engage third parties for any works, make sure that a business partner has a good reputation and shares the same ethical standards as set out in the Code of Business Conduct for Counterparties.

The companies within MTS Group accede to the Code by adoption of a corporate resolution to that effect by an authorized governing body.

1.3. LEGAL INFORMATION

The Code may be amended with account of the applicable laws and supplemented, inter alia, with separate regulations, at any time without a prior notice.

The Code is a document freely available to the public on the Company's official website.

Should any part of the Code come into conflict with applicable laws or regulations, only those sections of this Code that are consistent with the applicable laws and regulations shall apply.

2. ETHICS OF DECISION MAKING

Only fair business may be sustainable. The actions of each one of us can directly affect the reputation and financial standing of the company, which means that it is the responsible and mindful ethical behavior of each employee that ensures the business sustainability of the entire company.

2.1. DECISION MAKING PRINCIPLES

The Code establishes basic principles of behavior and decision-making, but it is impossible to anticipate every situation that may arise.

If you're not sure how to proceed, ask yourself the following questions:

- Is it legal?
- Is it honest and fair?
- Does it meet the interests of MTS Group?
- Is it consistent with the rules of MTS Group?
- Do I have the authority to do so?
- Will I feel comfortable if the information on my actions will be published in the media? Will I feel comfortable if my actions are brought to light in mass media?

If the answer to any of these questions is NO, or you are not absolutely confident in giving answers to these questions, you should abstain from an action you were going to commit.

Should you have any questions relating to the topics addressed in the Code, be in doubt as to whether a situation is regulated by the Code or whether it constitutes a violation of the Code, you should discuss that situation with your supervisor or manager, or refer the matter to the Compliance function.

2.2. RESPONSIBILITY OF EMPLOYEES AND EXECUTIVES

Each employee of MTS Group shall be guided by the requirements of this Code in their daily work and shall act in the best interests of MTS Group. MTS Group employees shall bear personal responsibility for strict compliance with the Code, policies and procedures of MTS Group companies, as well as with the applicable laws. Each employee shall show a personal example of ethical behavior and shall support their colleagues in doing the same.

PRINCIPLES OF MTS GROUP

	Description
#More ThanWork	I love what I am doing, and I get the maximum out of it. I don't follow the formal boundaries of a working day, because the key indicator of my work is the end result, not effort or time.
#About Client	I do things for people. The main goal of my work is to solve the client's problems. I respect my clients, do not deceive or manipulate them. I strive to exceed the client's expectations, and at least, my result meets them.
#Quickly ToThePoint	I respect the time of my colleagues and show care – I always convey the context of a problem, speak concisely and to the point, use facts and reduce bureaucracy. I look for a solution to a problem, rather than find explanations why it can't or won't work. When criticizing, I offer suggestions.
#Take Action	<p>I start with myself rather than expect others to take action. I take responsibility and take action. I am tracking the end result, thinking beyond functional boundaries and responsible for the holistic process.</p> <p>I solve problems without complaining. If a problem is not within my scope of responsibility, I inform my colleagues about it and help to find solution, not staying aside.</p>
#MakeIt Cool	I am accountable for the quality of my work and don't create mediocrity. I try new things, am not afraid to take risks and learn, including through failure. I am honest with myself and can admit my mistakes.
#Together	<p>I contribute to building the digital ecosystem of MTS. I value the diversity of business cultures and believe that our strength is multiplied when we work as a team.</p> <p>I am open to my colleagues' opinions and ideas, trust their competence, help them and share with them my ideas and experience to achieve our common goal – to make people's lives better every day.</p>
