### Mobile TeleSystems Announces Financial Results for the Second Quarter Ended June 30, 2012

August 28, 2012

**Moscow, Russian Federation – Mobile TeleSystems OJSC (“MTS” - NYSE: MBT), the leading telecommunications provider in Russia and the CIS, today announces its unaudited US GAAP financial results for the three months ended June 30, 2012.**

#### Key Financial Highlights of Q2 2012

- Consolidated revenues up 3.6% q-o-q to \$3,122 million
- Consolidated adjusted OIBDA<sup>1</sup> up 9.1% q-o-q to \$1,374 million with 44.0% OIBDA margin
- Consolidated net loss<sup>2</sup> of \$682 million
- Free cash-flow<sup>3</sup> positive with \$1.1 billion for the six months ended June 30, 2012

#### Key Corporate and Industry Highlights

- Obtained license and frequencies to provide LTE telecommunication services in Russia in the FDD (frequency division duplexing) standard
- Announced the withdrawal of operating licenses of Uzdunrobita FE LLC (“MTS-Uzbekistan”), MTS’s wholly owned subsidiary in Uzbekistan
- Acquired a 100% stake in Tascom CJSC, a market leader in providing telecommunication services to corporate clients in Moscow and the Moscow region, for \$38.3 million<sup>4</sup>
- Agreed to a memorandum of understanding with other telecommunications operators to jointly lay and operate an underwater fiber-optic cable Sakhalin-Magadan-Kamchatka. Total length of the cable is approximately 2,000 km
- Signed a shareholders agreement with AFK Sistema to jointly develop and manage the multimedia content portal Stream.ru (formerly Omlet.ru), following the reduction of MTS’s stake in LLC Stream from 100% to 45% and subsequent deconsolidation of the asset
- Completed the dividend payment of RUB 14.71 per ordinary MTS for the 2011 fiscal year, amounting to a total of RUB 30.4 billion
- Received licenses and agreed upon legal and technical conditions to resume operations in Turkmenistan

---

<sup>1</sup> See Attachment A for definitions and reconciliation of OIBDA and OIBDA margin to their most directly comparable US GAAP financial measures.

<sup>2</sup> Attributable to the Group.

<sup>3</sup> See Attachment B for reconciliation of free cash-flow to net cash provided by operating activity.

<sup>4</sup> Acquisition through MTS’ subsidiary MGTS. Additional payment of \$6.9 million is deferred for 12 months and is contingent upon fulfillment of certain agreed requirements. MGTS also assumed net debt of Tascom in the amount of \$9.7 million

a step ahead

## Press release

---

- Repurchased the series 05 ruble-denominated bond in the amount of approximately RUB 13.2 billion and changed the bond's coupon rate from an annual rate of 14.25% to 8.75%
- Acquired a 100% stake in Elf group of companies, a fixed broadband and pay-TV services provider in Belgorod and the Belgorod region, for RUB 220 million
- Acquired a 100% stake in LLC "Intercom", a broadband and cable TV provider in the Mari El Republic, for RUB 90 million

### **Impairment charges related to MTS' operations in the Republic of Uzbekistan**

On June 28, 2012, MTS announced that Uzbekistan authorities were conducting audits of the financial and operating activities of MTS-Uzbekistan and that certain MTS-Uzbekistan managers were detained without any legitimate grounds.

On July 17, 2012, MTS-Uzbekistan suspended its operations in Uzbekistan following receipt of an order from the Communications and Information Agency of Uzbekistan ("SACI") informing MTS-Uzbekistan of the temporary suspension of the operating license of MTS-Uzbekistan for a period of 10 business days.

On July 30, 2012, the Tashkent Economic Court granted a petition, which was filed on July 27, 2012 by the SACI, to extend the suspension of the operating of license of MTS-Uzbekistan for an additional period of three months. MTS-Uzbekistan filed an appeal to challenge this decision on August 8, 2012. On August 17, 2012, this appeal was denied.

On August 8, 2012, MTS announced that from August 6, 2012 through August 7, 2012, 16 regional antimonopoly departments of the Republic of Uzbekistan simultaneously held hearings and declared that MTS-Uzbekistan violated antimonopoly laws, consumer protection laws and laws governing advertisements. In total, the claims of the antimonopoly regulator against MTS-Uzbekistan amounted to approximately \$80 million, which was subsequently reduced by the central anti-monopoly authority to approximately \$13 million.

On August 9, 2012, MTS announced that the SACI had filed a petition with the Tashkent Commercial Court to withdraw all operating licenses of MTS-Uzbekistan. In addition, numerous claims were asserted against MTS-Uzbekistan on the grounds that it failed to comply with applicable licensing requirements.

On August 13, 2012, the Tashkent Commercial Court granted SACI's petition to withdraw all operating licenses of MTS-Uzbekistan. Subsequently, on August 27, 2012, MTS-Uzbekistan's appeal was denied. MTS also received the content of 16 findings of tax audits conducted by Uzbekistan tax authorities, which resulted in claims against MTS in excess of \$669 million.

MTS maintains that since the acquisition of MTS-Uzbekistan in 2004, it has duly complied with the requirements of the laws of Uzbekistan, a fact which has been confirmed by numerous audits conducted by the SACI and other regulatory bodies of Uzbekistan. Furthermore, in the last two months, in an attempt to clarify the situation and engage the relevant authorities in constructive discussions, MTS has sent numerous letters to the government of the Republic of Uzbekistan, including the President of Uzbekistan, I.A. Karimov. To date, MTS has not received any official response.

While MTS strongly denies any wrongdoing alleged by the various Uzbekistan authorities and has challenged, and intends to continue to challenge, the legality of their actions, MTS has fully complied with the relevant court decisions described above and has suspended all of its operations in Uzbekistan. Considering the adverse impact of such circumstances on MTS' ability to conduct operations in Uzbekistan, MTS has determined that a portion of its long-lived assets attributable to Uzbekistan was impaired and has recorded an impairment charge of \$579 million in the consolidated statement of operations for the three months ended June 30, 2012. In addition, MTS has provided for tax, anti-monopoly and other liabilities that management believes are probable to result from the various legal

## Press release

---

proceeding currently ongoing in Uzbekistan in the amount of \$500 million. The total effect of impairment charges on MTS' statement of operations, visible in its US GAAP net income for the three months ended June 30, 2012, is as follows:

Reconciliation of financial statements for events in Uzbekistan	
USD million	Q2 2012
<b>Net Operating Income before adjustments attributable to Uzbekistan</b>	<b>794.6</b>
Impairment of goodwill & long-lived assets in Uzbekistan	579.0
Provision for tax and anti-monopoly claims in Uzbekistan	500.0
<b>Net Operating Loss</b>	<b>(284.4)</b>
<b>Net Loss<sup>5</sup></b>	<b>(673.4)</b>

In connection with recent developments, MTS is conducting an internal review to evaluate events surrounding MTS-Uzbekistan and its employees, including communications with relevant international and local authorities, as well as correspondence with the General Prosecutor's Office, SACI and anti-monopoly organizations.

### Commentary

Mr. Andrei Dubovskov, President and CEO of MTS, commented, "Group revenue for the quarter increased 4% quarter-on-quarter to reach over \$3.1 billion US dollars in spite of a significant weakening of our core currencies versus the US dollar. We saw sustained growth in usage of voice and data products in each of our markets of operation. We also see signs of stability and moderate competitive pressures in our markets. Total revenues in Russia increased in ruble terms by 9% year-over-year to 82.8 billion rubles. Year-over-year our mobile business grew by 10% to 69.3 billion rubles. As we predicted, we continue to see benefits in our mobile business through a combination of strong tariff plans, prudent sales strategies and continued investments in our networks."

Mr. Alexey Kornya, MTS Vice President and Chief Financial Officer, said, "In the first quarter, we grew Group adjusted OIBDA by 5% year-over-year to \$1.37 billion US dollars despite a year-over-year weakening of the ruble/USD rate of nearly 11%. Our adjusted OIBDA margin for the period reached 44.0%, an increase of 2.4 percentage points from Q2 2011. Overall we are seeing success in our efforts to increase profitability in our Russian business and realize greater efficiencies across the Group. In Russia, OIBDA rose 14% to 36.9 billion rubles while our OIBDA margin increased from 42.7% to 44.6% in Q2 2012. While we are obviously pleased with our strong performance and the overall profitability of the Group, we feel there is a likelihood that margins will weaken in the second-half of the year due to the stabilization of revenue dynamics given the overall economic environment; increased labor costs based on new laws regarding social taxes; continuously rising rent and maintenance costs as we expand our mobile and fixed networks; further expansion of our retail footprint and its rising contribution to the Group's financial results, and the impact of the developments around our subsidiary in Uzbekistan which has been delivering high margins."

Mr. Dubovskov added, "In Uzbekistan, despite the successful growth and development of our telecommunications business, as we have recounted in our public disclosure, our subsidiary has been subjected to numerous actions by various authorities that have led us to suspend our operations. While we continue to challenge the allegations against MTS-Uzbekistan and make use of the appeals process within Uzbekistan, we are also evaluating other appropriate

---

legal strategies to defend our legitimate rights and investment interests. We also remain engaged to secure the release of our imprisoned employees." In Turkmenistan, we came to an agreement with government authorities in over the resuming of our operations and will re-launch services in September. We do not anticipate large costs to get the network up and running; our asset remains intact and in good condition. In Russia, we continue to see opportunities to create value in our business. By the end of the year, we will increase our retail footprint by up to 500 stores. The combination of 3G networks and a retail presence will help us drive sales of smartphones and increase smartphone penetration, which will in turn lead to higher-value customers."

*This press release provides a summary of some of the key financial and operating indicators for the period ended June 30, 2012. For full disclosure materials, please visit <http://www.mtsgsm.com/resources/reports/>.*

## Press release

### Attachments to the Second Quarter 2012 Earnings Press Release

#### Attachment A

Non-GAAP financial measures. This press release includes financial information prepared in accordance with accounting principles generally accepted in the United States of America, or US GAAP, as well as other financial measures referred to as non-GAAP. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP. Due to the rounding and translation practices, US dollar and functional currency margins, as well as other non-GAAP financial measures, may differ.

Operating Income Before Depreciation and Amortization (OIBDA) and OIBDA margin. OIBDA represents operating income before depreciation and amortization. OIBDA margin is defined as OIBDA as a percentage of our net revenues. Our OIBDA may not be similar to OIBDA measures of other companies; is not a measurement under accounting principles generally accepted in the United States and should be considered in addition to, but not as a substitute for, the information contained in our consolidated statement of operations. We believe that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our ongoing business operations, including our ability to fund discretionary spending such as capital expenditures, acquisitions of mobile and fixed operators and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under generally accepted accounting principles, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the wireless telecommunications industry. OIBDA can be reconciled to our consolidated statements of operations as follows:

Group (USD mln)	Q2 2011	Q3 2011	Q4 2011	Q1 2012	Q2 2012

## Press release

### Attachment B

Net debt represents total debt less cash and cash equivalents and short-term investments. Our net debt calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare our periodic and future liquidity within the wireless telecommunications industry. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP.

Net debt can be reconciled to our consolidated balance sheets as follows:

USD mln	As of Dec 31, 2011	As of Jun 30, 2012
Current portion of debt and of capital lease obligations	1,155.7	1,104.5
Long-term debt	7,554.0	6,237.1
Capital lease obligations	5.5	3.5
<b>Total debt</b>	<b>8,715.2</b>	<b>7,345.1</b>
Less:		
Cash and cash equivalents	1,850.8	881.0
Short-term investments	86.2	837.9
<b>Net debt</b>	<b>6,778.2</b>	<b>5,626.2</b>

Last twelve month (LTM) OIBDA can be reconciled to our consolidated statements of operations as follows:

USD mln	Six months ended Dec 31, 2011	Six months ended Jun 30, 2012	Twelve months ended Jun 30, 2012
	A	B	C=A+B
Net operating income	1,572.8	365.3	1,938.1
Add: D&A	1,142.8	1,188.4	2,331.2
Add: Impairment	-	579.0	579.0
Add: Tax and antimonopoly claims	-	500.0	500.0
<b>Adjusted OIBDA</b>	<b>2,715.6</b>	<b>2,632.7</b>	<b>5,348.3</b>

## Press release

Free cash-flow can be reconciled to our consolidated statements of cash flow as follows:

USD mln	For the six months ended June 30, 2011	For the six months ended June 30, 2012

### Attachment C

#### Definitions

**Subscriber.** We define a “subscriber” as an individual or organization whose account shows chargeable activity within sixty one days in the case of post-paid tariffs, or one hundred and eighty three days in the case of our pre-paid tariffs, or whose account does not have a negative balance for more than this period.

**Average monthly service revenue per subscriber (ARPU).** We calculate our ARPU by dividing our service revenues for a given period, including interconnect, guest roaming fees and connection fees, by the average number of our subscribers during that period and dividing by the number of months in that period.

**Average monthly minutes of usage per subscriber (MOU).** MOU is calculated by dividing the total number of minutes of usage during a given period by the average number of our subscribers during the period and dividing by the number of months in that period.

**Churn.** We define our “churn” as the total number of subscribers who cease to be a subscriber as defined above during the period (whether involuntarily due to non-payment or voluntarily, at such subscriber’s request), expressed as a percentage of the average number of our subscribers during that period.

**Subscriber acquisition cost (SAC).** We define SAC as total sales and marketing expenses and handset subsidies for a given period. Sales and marketing expenses include advertising expenses and commissions to dealers. SAC per gross additional subscriber is calculated by dividing SAC during a given period by the total number of gross subscribers added by us during the period.
